

MEN Sinoeun
 Executive Director
 Artisans' Association
 of Cambodia

Dear Buyers,

Thank you for your interest in products from Cambodia!

The Artisans' Association of Cambodia members featured here all offer export-quality products, designed with overseas buyers in mind. All are made with traditional techniques by organizations that focus on skills development and job creation for needy—and hardworking—people. Their products speak volumes of the passion and attention that the individual producers and organizations put into each item.

We trust that through this program, importers will come to know more about Cambodia and its excellent potential as a supplier of competitively priced, unique silk fashion accessories treasured by discerning buyers worldwide.

I invite you to contact me at the AAC, or our members directly, to discuss your sourcing needs.

On behalf of all members of the Artisans' Association of Cambodia, I would like to express our thanks and gratitude to The Kearny Alliance and Global Sources for offering the Developing Country Export Assistance Program to our export suppliers. It is truly a win-win-win program—with buyers getting great products to help grow their sales, our members earning money to support their work in a sustainable manner, and the individual workers who can support themselves and their families through their own efforts.

Best regards,

MEN Sinoeun
